NEETACE FOR COACHING INSTITUTES

NEET tests for every batch, with your logo, in minutes.

Pick a chapter, check each question, then share it on WhatsApp, print it with OMR sheets or assign it online.

neet.bluetrace.tech/institutes · Bluetrace Technologies Private Limited · DPIIT-recognised startup

A WEEK AT AN EXAMPLE ACADEMY

Meet the people at Shree Classes

Follow them from Monday night to Saturday and see where NEETAce fits in.

Sana

Physics teacher. Makes a test for three batches every week.

Mr. Kulkarni

Runs the academy. Wants results he can show parents.

Priya

NEET dropper. Strong in Biology, losing marks in Physics.

Her mother

Pays the fees. Asks every week how Priya is doing.

An illustrative story: the people and the academy are made up. Every feature shown is real.

MONDAY, 10 PM

Sana is still making tomorrow's test

Finding the questions

Picking, typing and checking 45 or 90 questions for one chapter, for every batch.

Keys and sets

Writing the answer key and solutions, and shuffling sets so students cannot copy.

Checking sheets

Marking OMR sheets by hand, then working out which topics the batch got wrong.

Every week, for every batch. Your teachers know this night well.

TUESDAY, 8:30 AM

With NEETAce, the test is ready before her first class

1

Choose

Subject, chapter, topic, number of questions and the question type.

2

Check

See each question with its answer and explanation. Keep it, or swap it for another from the same chapter.

3

Use

Share a PDF on WhatsApp, print with OMR sheets, download a Word file, or assign it online.

Every paper is kept in My papers: reuse it, or make a fresh version with new questions.

WHAT SANA HAD TO WORK WITH

A full NEET question bank, ready to use

22,000+

ready NEET questions across every chapter of the NEET-UG syllabus

Variants

fresh numericals, each answer worked out from its formula

10–180

questions a paper, with one-tap 10, 45 and 90

1 photo

grades a printed OMR sheet, no scanner

Every NEET format: single answer, assertion–reason, two statements and match the list. Plus the real NEET 2025, 2024, 2023 and 2022 papers, answered from NTA’s final keys.

Fixed inventory: 22,553 (5 November 2026). Latest: 120 charge/V-I/Kepler questions, six diagrams; all await subject review.

Staff-only labs: V-I, Motion, Ray Optics, Genetics and Mole/Stoichiometry. Active teachers, institute heads and admins sign in to open.
Students use teacher-assigned questions, not lab authoring controls. Bounded models; review required; no AI credits. Fixed bank unchanged.

WEDNESDAY

Priya takes home a Shree Classes paper

Students see your name, not ours: one small “Prepared with NEETAce” line, no sign-up link, no QR code. We never advertise to your students.

Logo and name on top

Question booklets, OMR sheets, answer keys and solutions.

Up to 4 shuffled sets

Sets A to D, each with its own key, graded from photos.

Editable Word file

Change anything in Word, Google Docs or WPS before printing.

The Academy Head uploads the logo once; every teacher’s paper uses it.

SATURDAY

Mr. Kulkarni sees exactly who needs help

Online tests, NEET marking

+4 / −1, an opening time, a deadline, and answers shown only after the deadline.

Results by chapter and topic

Priya’s Physics gap shows up by chapter, so Monday’s class targets it.

Results to parents in one tap

Priya’s mother gets her score, rank and weak chapter on WhatsApp, plus a report every Monday.

Students practise every day

Practice, timed tests, a mistake book and the AI Tutor within a monthly allowance.

The Academy Head sees students inactive for 7 days and the weakest chapter each week.

WHY INSTITUTES GROW WITH IT

Four ways it helps your institute grow

Your brand travels

Every shared paper carries your name into students’ homes and WhatsApp groups.

Parents see progress

Every test result on WhatsApp in one tap, and a report each Monday, show what the fees buy.

Weak chapters fixed early

The academy’s weakest chapter each week, with a paper on it in one tap.

No silent dropouts

Students inactive for 7 days are flagged, with a reminder ready for WhatsApp.

Better tests every week lead to better results, and results are what bring the next batch.

Parent messages use the number and email a student adds in their profile; the teacher presses Send.

START WITH YOUR OWN CLASSROOM

Try it free for 14 days

Run your real weekly tests, with your logo, before choosing a paid academy contract.

DAY 1

Set up together

A 20-minute call to prepare your academy, logo, teachers and batch link.

DAYS 2-13

Use it with students

Up to 30 students try the workflow. Teachers build, review, print and assign real tests.

DAY 14

Choose your next step

INR 499/student + INR 0 platform for 10 months. Minimum 10 students. GST included. Or stop.

One free pilot per institute. No payment details needed to start.

CURRENT ACADEMY PRICING

Clear prices. Your choice of seats.

Quoted term: 10 months | One Academy Head seat included

Student seat

INR 499

per student for the term

Additional teacher

INR 799

per extra teacher for the term

AI Generator add-on

INR 2,990

per enabled teacher for the term

Minimum student seats: 10 | Platform: INR 0 | GST included

Included teacher seats: 0. Student volume discounts: 25-49 students: 10% | 50-99 students: 20% | 100-9999 students: 30%

Final amount, taxes, seats and negotiated terms appear in your confirmed quote. AI availability is checked before purchase. Saved copies keep their dated prices; use the link below to compare seat configurations and current rates.

WHO WE ARE

Made by Bluetrace Technologies, an Indian startup

Private limited company	CIN U62099ME2026PTC474717
DPIIT-recognised startup	Certificate DIPP266429
MSME (Udyam) registered	UDYAM-MH-25-0077376
GST registered	GSTIN 27AAOCB7164R1ZP · tax invoice with every payment

Based in Parbhani, Maharashtra. Built for NEET coaching across India.

Each number can be checked on mca.gov.in, startupindia.gov.in, udyamregistration.gov.in and gst.gov.in.

START THIS WEEK

Start your free pilot this week

Book a 20-minute demo. We switch the pilot on during the call, and your first test can go out the same day.
